As a boat owner, Angelina, we have been collaborating with the Morka Sailing School since 2012. For 3 years we have been witnesses to the professional training they provide to future sailors, skippers.

The Voditelj Brodice training courses meet all the Croatian requirements. The candidates who have completed the training offered by Morka's instructors have almost a 100% pass rate in exams. Moreover, Morka's captain, Piotr Lewandowski, is an author of the only Polish textbook on Voditelj Brodice, which offers comprehensive knowledge to anyone willing to sail on our waters.

My top priority as a boat owner is to charter my yachts to responsible and able sailors. And I can say with confidence based on my experience that I have found these qualities in all the Morka Sailing School sailors.

I can fully recommend the Morka Sailing School to people looking for high-level training in harbour manoeuvring and safe sailing, and to future skippers. I cannot recommend them enough for their responsibility and professional training, which has made chartering yachts to the Morka Sailing School a pleasure.

Sincerely,

Luka Šangulin
